

## Connect Hotels Environmental Work

Connect Hotels is awarded with the international eco-label Green Key. Therefore:

- Connect Hotels have taken initiatives to reduce the water and energy consumption.
- Connect Hotels only buy renewable electricity.
- Connect Hotels use eco-labeled products in daily cleaning.
- Connect Hotels sort and recycle waste generated within the organization.
- Connect Hotels buy organic and Fair Trade food and the proportion increases each year.

As our guest, please help us in our environmental effort:

- Turn off the lights and devices when leaving the room.
- Hand in your waste at the reception - we will recycle it for you.
- Leave your towel on the floor only when you wish to have it replaced.
- Consider what you leave on the breakfast tray, do not take more than you can eat.

Did you know that each year, more than 30 kg of food is thrown away per person in Sweden?

## Connect Hotels Environmental Policy

Our environmental work shall be based on the recognition that the earth's resources are limited and so is nature's ability to handle the stress caused by human activities. We shall contribute to a more organic sustainable society through effective priorities and resource savings in our daily work, something that both our employees and our guests should be proud of.

We are therefore committed to:

- Fulfill the requirements imposed on our business by Swedish laws and regulations in the field of environment and sustainability.
- Reduce our energy and water consumption through efficient heating control, the use of energy saving light-bulbs, controlled lighting and resource-efficient plumbing products. Furthermore, we make sure to continuously measure and monitor our consumption of energy and water, and take actions when necessary.
- Always consider the environment when purchasing goods and services and to choose the most environmentally friendly option as far as possible. We will effectively economize resources and recycle used materials when possible.
- Work actively with annual environmental goals and action plans for continuous improvement in the area of environment and sustainability.
- Establish the environmental awareness firmly among our guests and employees through continuous information and education.

Finn Andresen & Thomas Söderlund  
Owners of Connect Hotels
